Echo introduces a table of fruit, set without rules, and then the text carries on below it.

Fruit	Count	Price
Apple	3	1.20
Pear	10	0.80
Plum	7	2.10

Foxtrot follows the table. Next comes an equation, set on its own line:

$$\blacksquare + \blacksquare = \blacksquare$$

Golf comes after the equation, and then a picture of a square:

Hotel ends the page after the picture.
